

THIS WEEK:
STB - Care for Creation

Separating Waste

- Compostable
- Recyclable
- Landfill

Beginning the weekend of **February 24-25**, Saint Thomas Becket community will begin separating our waste into compostable items, recyclable items, and items destined for the landfill.

All foodservice items that used to be disposable will now be compostable.
All paper towels will now be compostable.

Thanks to a grant through Dakota County applied for by the Sustainability Committee, we will have new bins and labels throughout the church to make this separation easy.

Based on the 2016 trash survey conducted by Boy Scout Troop 451, we stand to reduce our landfill waste by over 75%!

Be on the lookout for our new furniture.

Please look at the picture labels carefully to ensure that our waste is correctly separated.

Please contact Kathie Peterson kathiep64@gmail.com
or Michelle Sharp at michelle.m.sharp@gmail.com with questions, feedback,
or if you'd like to get involved with future projects.
