Data Breach Notice

The Archdiocese of Saint Paul and Minneapolis learned Thursday night that hackers outside of the United States compromised an Image-I-Nation Technologies (INT) database that contained personal information on some employees and volunteers in the Archdiocese. INT, a vendor used by the company that conducts our background checks advised that it is sending notifications to all persons whose information may have been accessed. We are sending this notice so that if you receive a letter from INT, you know that it is authentic. We will continue to follow up with INT and our vendor about this problem.

For more information on the data breach and how you may be affected, please contact Image-I-Nation at: 1-877-296-9970. For other questions, please contact Joe Kueppers, Chancellor for Civil Affairs, Archdiocese of Saint Paul and Minneapolis at: 651-291-4405.
