

IF YOU NEED TO RECEIVE COMMUNION IN THE FORM OF A GLUTEN-FREE HOST, we are initiating a new procedure beginning on the First Sunday of Lent, March 9th & 10th:

The gluten-free hosts will no longer be in the freezer.

- When you come to Mass, come to the gifts table next to the sacristy.
- You will find the gluten-free hosts in a small bowl next to some plastic pyx'.

Place your host into a pyx and put it in the bowl of hosts. When you go to communion, go in the president's line (Section B) and tell Father that you need a plastic pyx. He will give you the pyx, you take it, remove the host and consume it. After mass, please leave your pyx on the gifts table. We hope to avoid cross-contamination by using this procedure.
