

Care for Creation

With our new water fountain/refill station, as a parish, we have already saved almost 300 plastic water bottles from disposal into the environment! Thank you and please continue to bring your own water bottle whenever feasible.

Our next eco-friendly project is the installation of bicycle racks at Saint Thomas Becket within next few weeks. Ride your bike to our Spring outdoor Mass service on June 9th at 11:00am. Afterwards, please stay for a special blessing of our new bike racks. Please bring your helmets, motorcycles, bicycles, scooters, strollers, etc. to be included in the blessing. Consider biking to mass on a regular basis!
